(Regular price \$15.99)**

We'll deliver it to your house when we do your closing. Please let us know when scheduling.

Mr. Magic[®] Ice Melter is a proprietary formulation of potassium chloride (a fertilizer), calcium chloride, magnesium chloride and sodium chloride. The product is coated with calcium magnesium acetate (CMA). Mr. Magic[®] will melt more snow and ice than most other products. It works faster and down to -25°, a temperature when most other products have stopped working.

Mr. Magic[®] is formulated to be seen when used. Most "white" ice melt products disappear into snow and ice. Users tend to over-apply, or worse, under-apply product because they can't see where it lands. Mr. Magic[®] provides proof positive that an ice melter is in use.

Because Mr. Magic[®] melts more effectively than other products, a smaller quantity is needed to remove snow and ice. Consequently, environmental impact on ground and vegetation is reduced.
